The Inessence series of residences
is guided by one simple principle:
luxury is a distinctive and individual experience.
A pairing of understated elegance and discernment.
Your Inessence home is an expression of yourself.
An imaginative, intuitive and daring statement
that you have truly arrived.

Every Inessence residence shares four
uncompromising pillars: a prime location, a unique design
by an architectural visionary, thoughtfulness in space and
details, and a singular pursuit of craftsmanship.

IN ESSENCE

Address

is what surrounds it, and what's within it.
It is where you are in life, and where you
are on the map. An address sought after
by all, a privilege enjoyed by the few.

Design

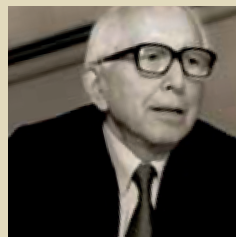

is space created to give you space.
Space for life. Space from life. It is how
much you put in it, and equally how
much you leave out.

Thoughtfulness

is about more. It is perfecting what is
already exquisite. And yet appreciating
the authenticity of imperfection. It's
raising expectations, exceeding them,
only to raise them again.

FUMIHIKO MAKI
Maki and Associates, Tokyo

Designed by Fumihiko Maki, Skyline @ Orchard Boulevard raises the bar on modern luxury. A soaring achievement in design and understated elegance.

A self-professed modernist, Maki has transformed steel, concrete and glass into a poetic language of design. Maki has been honoured by many of the profession's highest accolades, including the Pritzker Prize - often regarded as the "Nobel Prize for Architecture", awarded in 1993.

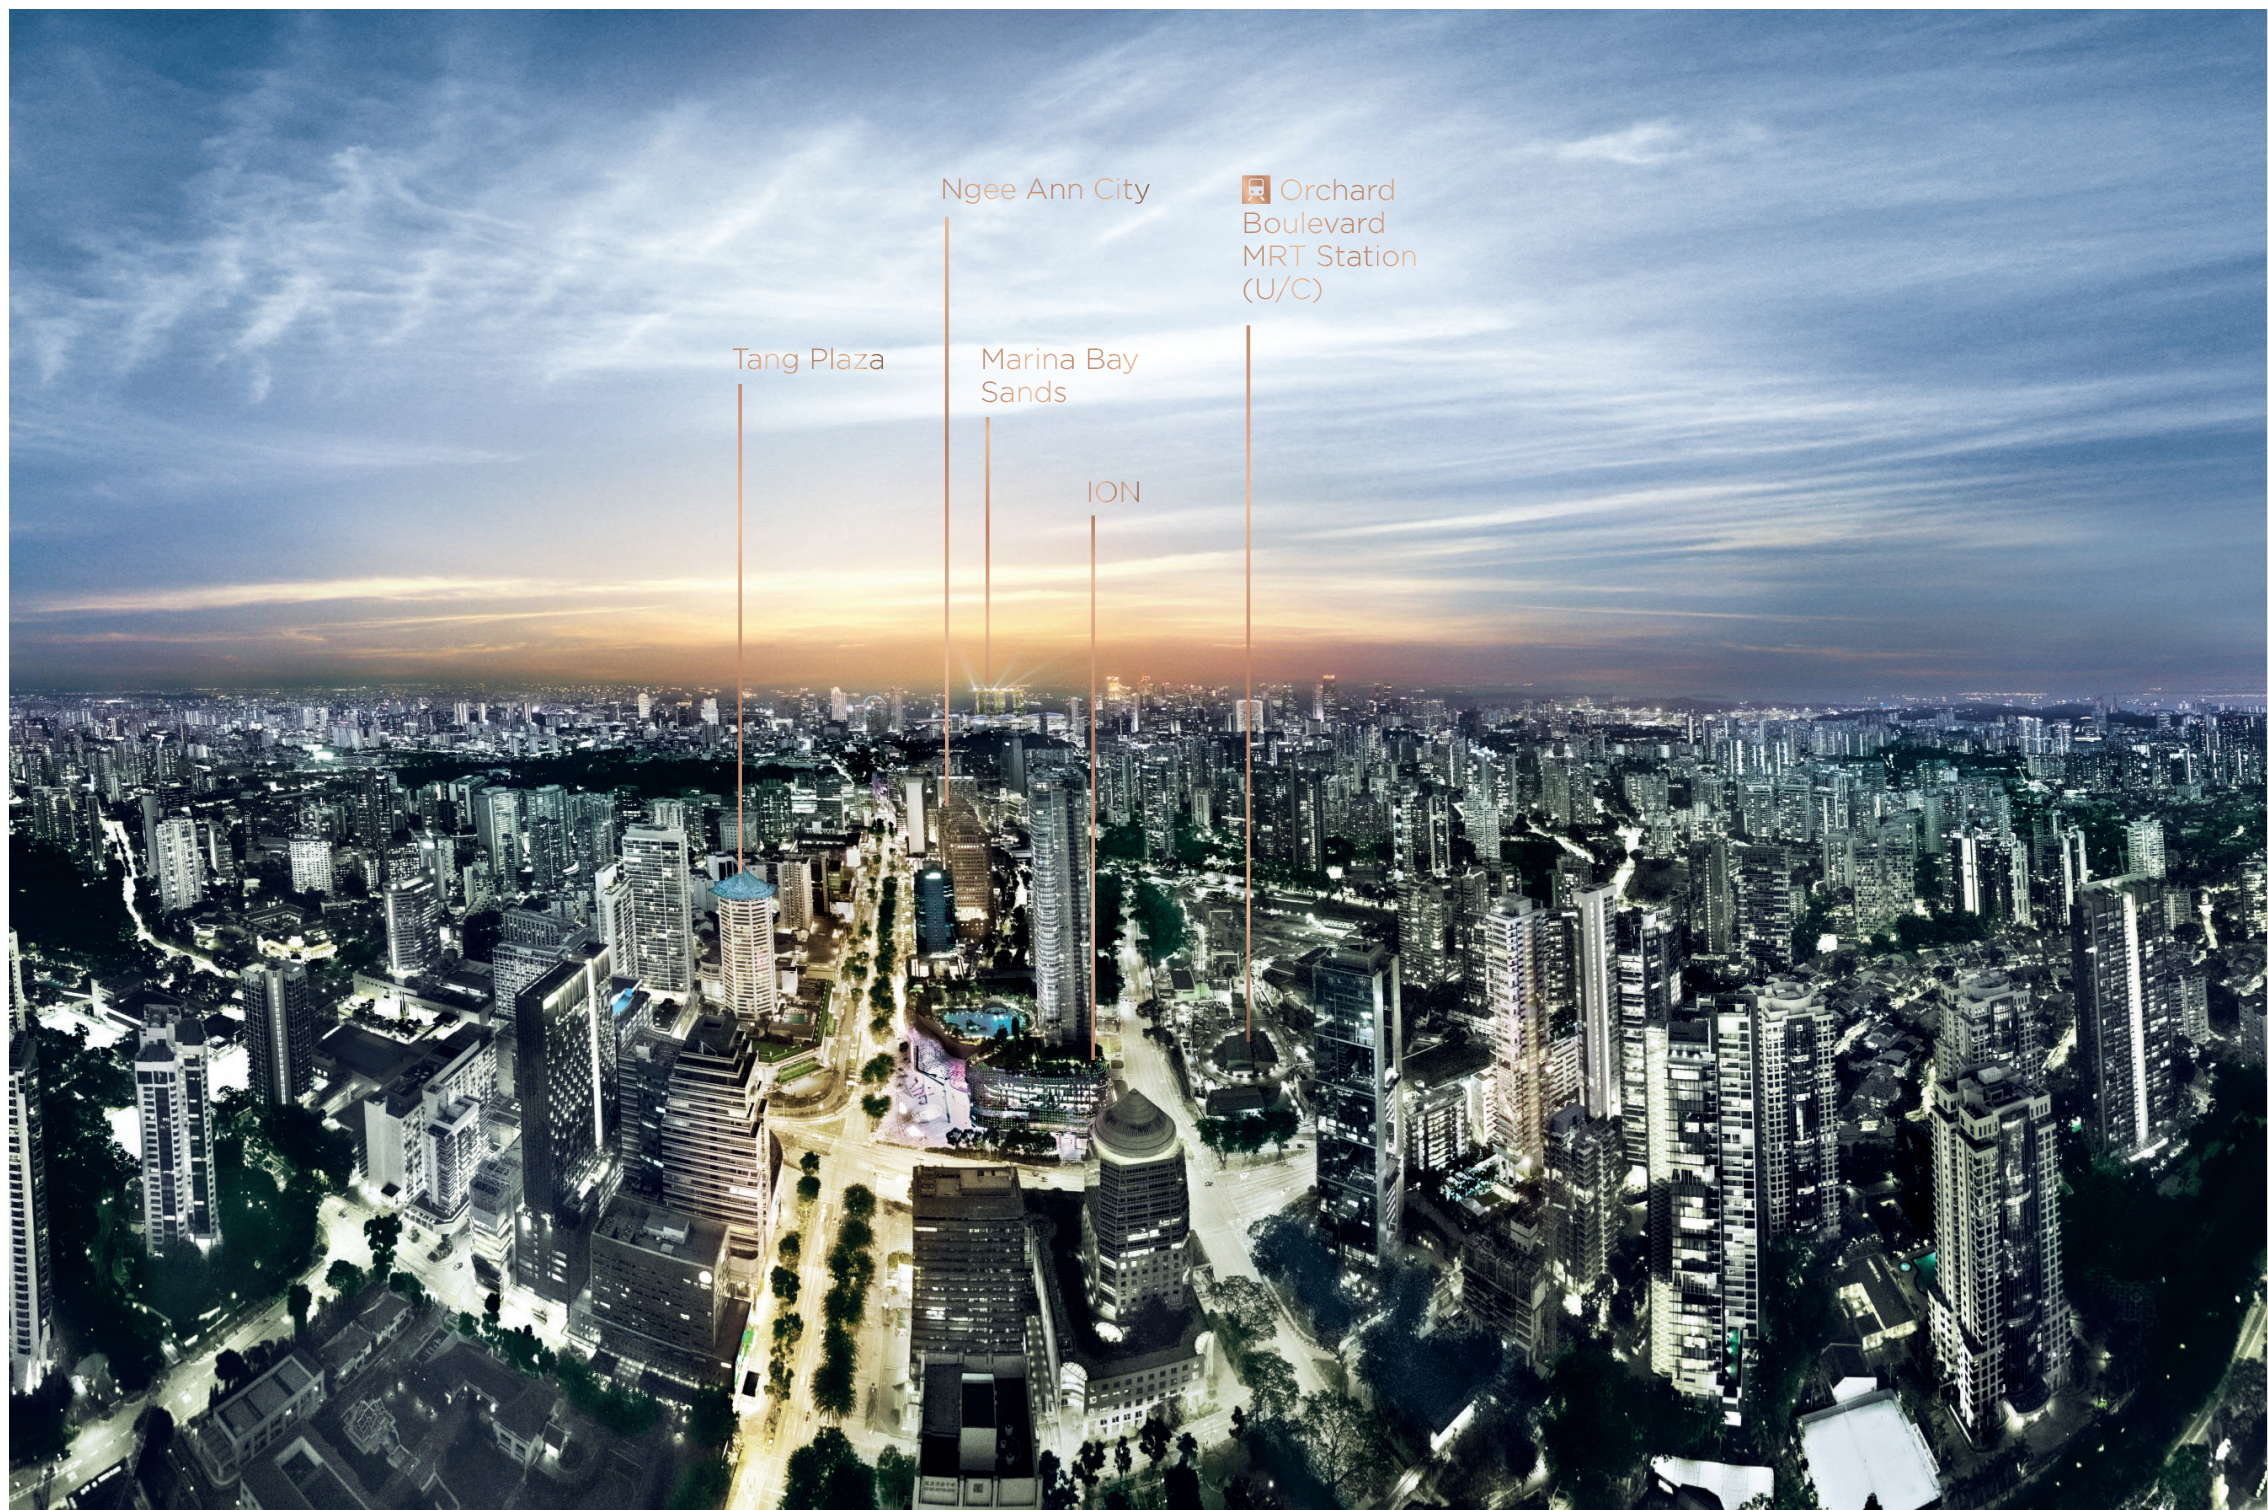

“It is the responsibility of the architect to leave behind buildings that are assets to culture.”
